Blinkit Diwali 2026 ? AI Brand Governance & Compliance Guidelines

* **Platform:** Inkloom AI Content Compliance Auditor
* **Client Brand:** Blinkit
* **Campaign Event:** Diwali 2026
* **Document ID:** `INK-BLK-DIW2026-BG-01`
* **Disclaimer:** *These are mock prototype guidelines created for testing and judging within the Inkloom AI compliance platform. They do not represent official Blinkit legal or corporate policy.*

---

1. Purpose

This document defines the deterministic brand-governance rules for evaluating static visuals, copy, audio, and video assets submitted for the **Blinkit Diwali 2026** campaign. Every rule in this specification is structured so an automated AI auditor in **Inkloom** can parse visual cues, color hex values, OCR text strings, and audio transcripts to output a repeatable compliance verdict (`PASS`, `NEEDS_REVIEW`, or `FAIL`).

---

2. Campaign Objective

The **Blinkit Diwali 2026** campaign celebrates the warmth, joy, and convenience of preparing for Diwali with family and friends. Campaign assets must position the **Blinkit app** as a helpful, reliable, and festive partner for last-minute festival essentials, gifts, sweets, and home decorations?while maintaining strict safety, environmental responsibility (zero firecrackers or fireworks), and accessibility standards.

---

3. Diwali Visual Requirements

Every campaign visual asset must unmistakably and visibly communicate **Diwali**.

* **Core Rule:** A visual is **not** Diwali-compliant if it only uses Blinkit yellow (`#F8C200`) and charcoal (`#1C1C1E`) colors without visible festive context.
* **Minimum Cue Threshold:** Every Diwali poster or visual frame must include **at least two (2) clear Diwali cues** from the approved list below:
  1. **Diya lamps** (traditional clay or brass oil lamps with a calm flame)
  2. **Rangoli** (traditional floor art or geometric floral patterns)
  3. **Marigold flowers** (garlands, torans, or loose blossoms)
  4. **Festive lights** (warm string lights, fairy lights, or hanging LED curtains)
  5. **Lanterns** (traditional paper or decorative *kandil* lanterns)
  6. **Indian sweets** (*mithai* such as laddoos, kaju katli, barfi, or gulab jamun in festive serving ware)
  7. **Gift boxes** (wrapped festive hampers, dry-fruit boxes, or decorative gift bags)
  8. **Traditional festive decoration** (brass *kalash*, *torans*, banana leaves, or festive tableware)
  9. **The word "Diwali" or an equivalent festive headline** (e.g., *"Happy Diwali"*, *"Diwali Ready with the Blinkit app"*, *"Shubh Deepavali"*)

> **Auditor Rule:** If an asset contains 0 cues, it triggers an automatic `FAIL`. If an asset contains only 1 cue (or cues that are visually indistinct/ambiguous), it triggers `NEEDS_REVIEW`.

---

4. Prohibited Visual Elements

To ensure public safety, environmental compliance, intellectual property protection, and brand neutrality, the following visual elements are **strictly prohibited** across all images, illustrations, icons, and video frames:

1. **Crackers or firecrackers** (including *anar*, *chakri*, sparklers/*phuljhari*, rockets, or string bombs, whether lit or unlit)
2. **Fireworks** (aerial bursts, sky sparks, or pyrotechnic displays)
3. **Smoke from fireworks** (haze, fumes, or smog associated with burning pyrotechnics)
4. **Explosions** (blast graphics, comic-style boom effects, or combustion effects)
5. **Weapons or dangerous objects** (knives, firearms, matches/lighters held dangerously, or hazardous materials)
6. **Political or religiously sensitive messaging** (partisan symbols, political figures, controversial slogans, or exclusionary religious depictions)
7. **Copyrighted characters** (e.g., Spider-Man, Iron Man, Mickey Mouse, Pokémon, or unauthorized celebrity likenesses)
8. **Unlicensed third-party logos** (competitor marks, unapproved brand watermarks, or modified partner logos)
9. **Generic posters with no visible Diwali context** (standard everyday grocery banners or plain yellow/black layouts lacking festive elements)

> **Auditor Rule:** Detection of any prohibited element (1 through 9) results in an immediate `FAIL`.

---

5. Brand Voice

All copy, headlines, captions, and voiceover scripts must follow the Blinkit brand voice:

* **Clear:** Simple, direct sentences that immediately state what the customer can get on the Blinkit app.
* **Friendly:** Warm, welcoming, and celebratory without feeling overly formal or stiff.
* **Fast and Useful:** Focused on solving real festive errands (forgotten marigold garlands, extra boxes of sweets for guests, last-minute gift bags).
* **Inclusive and Respectful:** Uses welcoming Diwali language that respects cultural traditions without sectarian, political, or exclusionary framing.
* **Short and Readable Headlines:** Primary poster headlines must be concise (ideally 3 to 8 words) so they can be read at a glance on mobile screens.

---

6. Approved and Prohibited Terminology

6.1 Approved Terminology
* Always prefer **"Blinkit app"** instead of standalone **"app"** (e.g., *"Order festive sweets on the Blinkit app"* instead of *"Order on the app"*).
* Approved festive phrases:
  * *"Happy Diwali"*
  * *"Shubh Diwali"* / *"Shubh Deepavali"*
  * *"Diwali essentials on the Blinkit app"*
  * *"Festive gifting made simple"*
  * *"Light up your home this Diwali"*

6.2 Prohibited Terminology
The following words and exaggerated modifiers are **strictly prohibited** in headlines, body copy, disclaimers, and voiceovers:
* **"guaranteed"** (e.g., *"Guaranteed festive delivery"*)
* **"instant"** (e.g., *"Instant Diwali sweets delivery"*)
* **"always"** (e.g., *"Always in stock, always on time"*)
* **"100%"** (e.g., *"100% fastest delivery"* or *"100% pure gold offer"*)
* Standalone **"app"** without **"Blinkit"** preceding it (triggers `NEEDS_REVIEW` if used casually, or `FAIL` if misleading).

---

7. Approved Claims

1. **No Unsupported Claims:** Do not make unverified superlative or comparative claims (e.g., *"India's #1 Diwali store"*, *"Cheapest sweets in the city"*).
2. **Delivery Time Promises:** Do **not** promise specific delivery times (such as *"Delivered in 8 minutes"* or *"10-minute guaranteed delivery"*) unless the exact phrasing is backed by an explicitly approved campaign token and regional legal disclaimer.
   * **Unverified Delivery Claim:** Triggers `NEEDS_REVIEW` if phrased as an estimate without verification, or `FAIL` if paired with prohibited absolutes like *"guaranteed"* or *"instant"*.
3. **Permitted Functional Statements:**
   * *"Get Diwali sweets, diyas, and gifts delivered to your doorstep via the Blinkit app."*
   * *"Shop festive essentials on the Blinkit app."*
   * *"Forgot the marigold garlands? Order now on the Blinkit app."*

---

8. Accessibility Requirements

Every visual and multimedia asset must adhere to strict accessibility standards:

1. **Strong Text/Background Contrast:**
   * Body and headline text must maintain a minimum contrast ratio of $4.5:1$ ($3:1$ for large display text).
   * Use Charcoal (`#1C1C1E`) text on Blinkit Yellow (`#F8C200`) or White (`#FFFFFF`) backgrounds.
   * Never place White (`#FFFFFF`) text directly on Blinkit Yellow (`#F8C200`).
2. **No Small Text Over Busy Imagery:**
   * Do not overlay body copy or disclaimers directly across intricate rangoli patterns, glowing string lights, or multi-colored sweet boxes without a solid container or high-opacity dark/light backing plate.
3. **Mobile Readability:**
   * Important text (headline, CTA, product offer) must remain clearly legible when scaled down to a standard mobile viewport width (360 px to 430 px).
4. **No Color-Only Information:**
   * Do not rely solely on Green (`#00A36C`) or Orange (`#FF6B35`) to indicate availability, discounts, or action states; pair colors with clear text labels or icons.
5. **Meaningful Alt Text:**
   * Every static image or poster uploaded to Inkloom must include descriptive alt text (15 to 40 words) specifying the Diwali cues present, the primary headline, and the CTA.

---

9. Image, Audio and Video Rules

9.1 Static Image Rules
* Must use the official Blinkit visual palette:
  * Blinkit Yellow: `#F8C200`
  * Charcoal: `#1C1C1E`
  * White: `#FFFFFF`
  * Green: `#00A36C`
  * Orange Accent: `#FF6B35`
* Must feature at least 2 approved Diwali visual cues and 0 prohibited elements.

9.2 Audio Rules
* Voiceover tone must be warm, clear, upbeat, and conversational.
* Must explicitly say **"Blinkit app"** rather than just **"app"**.
* **Prohibited Audio SFX:** Firecracker pops, rocket whistles, loud explosions, sirens, or chaotic crowd noise.
* **Approved Audio SFX:** Gentle festive instrumental music (sitar, flute, light percussion), chime transitions, and warm ambient sounds.

9.3 Video Rules
* Every keyframe and end-card must satisfy the visual and accessibility rules.
* No sparkler or firework particle animations in transitions or lower-thirds.
* All spoken dialogue must be accompanied by high-contrast, burnt-in captions or synchronized subtitle tracks.

---

10. Compliance Decision Rules

Inkloom's AI auditor must apply the following exact decision logic when evaluating any asset:

PASS:
- Clearly shows Diwali.
- Contains no crackers or fireworks.
- Uses Blinkit colors and tone.
- Contains no unsupported claims.
- Has readable and accessible text.

NEEDS_REVIEW:
- Diwali context is weak or unclear.
- Palette is partially outside the approved colors.
- Text or delivery claims need verification.
- The asset contains ambiguous festive imagery.

FAIL:
- Contains crackers or fireworks.
- Does not visibly communicate Diwali.
- Uses copyrighted characters or unlicensed logos.
- Contains dangerous, political or sensitive content.
- Uses misleading or unsupported claims.

---

11. Safe Examples vs. Unsafe Examples

11.1 Safe Examples (`PASS`)
* **Safe Example 1 (Festive Gifting Poster):** A Blinkit Yellow (`#F8C200`) poster with Charcoal (`#1C1C1E`) headline reading *"Happy Diwali! Gift boxes & mithai on the Blinkit app"*. Visual shows an illustrated box of *kaju katli*, two lit clay *diya* lamps, and a marigold garland border. High-contrast CTA button in Charcoal with White text. Meaningful alt text attached.
* **Safe Example 2 (Last-Minute Decor Reel):** A 15-second vertical video showing a family arranging a floral *rangoli* and hanging warm paper *lanterns*. Voiceover says: *"Need extra marigold flowers for your rangoli? Order festive essentials on the Blinkit app."* Captions are displayed in White text inside a solid Charcoal pill box.

11.2 Unsafe Examples (`FAIL` / `NEEDS_REVIEW`)
* **Unsafe Example 1 (`FAIL` ? Fireworks & Exaggerated Claim):** A dark night-sky poster showing bursting aerial fireworks and children holding sparklers, with White text over Yellow background reading *"100% Instant Delivery of Diwali Crackers on the app!"* (Violates firework ban, unsupported/exaggerated claim rules, "app" phrasing rule, and contrast rules).
* **Unsafe Example 2 (`FAIL` ? Copyrighted Character & No Diwali Context):** A plain yellow poster showing Spider-Man holding a grocery bag with the headline *"Get groceries guaranteed in 5 minutes!"* (Contains copyrighted character, zero Diwali cues, and prohibited word *"guaranteed"*).
* **Unsafe Example 3 (`NEEDS_REVIEW` ? Weak Context & Unverified Delivery Claim):** A pastel purple and yellow poster showing a single small unlit candle and copy reading *"Get your order in 12 minutes on the app."* (Only 1 ambiguous festive cue, off-brand purple palette, standalone *"app"*, and unverified delivery time claim).

---

12. Deterministic Audit Rubric

Audit Dimension	`PASS` Criteria	`NEEDS_REVIEW` Criteria	`FAIL` Criteria
1. Diwali Visual Cues	≥ 2 explicit approved Diwali cues clearly visible.	Only 1 cue visible, or cues are blurry/ambiguous (e.g., generic candle instead of *diya*).	0 Diwali cues (e.g., yellow/black color-only layout or generic grocery poster).
2. Prohibited Visuals (Pyrotechnics & Safety)	0 crackers, fireworks, firework smoke, explosions, or weapons.	Heavy background bokeh or lens flare that resembles sparks and requires human confirmation.	Any visible firecracker, sparkler, firework burst, firework smoke, explosion, or weapon.
3. IP & Sensitivity	Original/licensed brand assets only; culturally respectful festive greeting.	Unclear third-party packaging visible on a product box requiring license verification.	Copyrighted characters (e.g., Spider-Man), unlicensed logos, or political/religiously sensitive content.
4. Color Palette	Primary dominance of `#F8C200`, `#1C1C1E`, `#FFFFFF`, with `#00A36C` and `#FF6B35` accents.	Minor secondary background tints outside the 5 approved hex codes.	Completely off-brand color scheme with no recognizable Blinkit palette presence.
5. Copy, Tone & Claims	Friendly, useful tone; uses *"Blinkit app"*; 0 prohibited words; 0 unsupported claims.	Uses standalone *"app"*; mentions a delivery time or discount claim that needs approval lookup.	Uses *"guaranteed"*, *"instant"*, *"always"*, *"100%"*, or makes misleading/false claims.
6. Accessibility	Contrast $\ge 4.5:1$; no small text over busy areas; mobile-legible; alt text present.	Alt text is overly brief (< 5 words) or secondary text is near a decorative edge.	Unreadable contrast (e.g., `#FFFFFF` on `#F8C200`), tiny text over busy imagery, or missing alt text.

---

13. Compliance Test Cases (Brand Guidelines)

Test Case ID	Asset Type	Visual Description	Copy / Audio Transcript	Alt Text Status	Expected Outcome	Primary Audit Reasoning
`BG-TC-01`	Static Poster	`#F8C200` background, clay *diya* lamps, marigold garland, box of laddoos.	*"Happy Diwali! Order fresh mithai and diyas on the Blinkit app."* (Charcoal `#1C1C1E` text)	Present & descriptive	**PASS**	Contains 4 Diwali cues (diyas, marigold, sweets, "Diwali" headline), approved palette, uses "Blinkit app", high contrast, no prohibited elements.
`BG-TC-02`	Static Poster	`#1C1C1E` background with bursting sky fireworks and smoke behind a gift box.	*"Celebrate Diwali with the Blinkit app!"* (`#FFFFFF` text)	Present & descriptive	**FAIL**	Contains prohibited fireworks and smoke from fireworks.
`BG-TC-03`	Static Poster	Solid `#F8C200` and `#1C1C1E` geometric banner showing vegetables and milk packets only.	*"Stock up on daily groceries with the Blinkit app."*	Present & descriptive	**FAIL**	Does not visibly communicate Diwali (0 Diwali cues; yellow/black colors alone are not compliant).
`BG-TC-04`	Social Ad	Spider-Man holding a decorative paper lantern next to a bowl of sweets on `#F8C200` background.	*"Super Diwali deals on the Blinkit app!"*	Present & descriptive	**FAIL**	Uses a copyrighted character (Spider-Man).
`BG-TC-05`	Static Poster	`#F8C200` background, rangoli art, and gift boxes.	*"100% Instant Diwali Delivery Guaranteed on the Blinkit app!"*	Present & descriptive	**FAIL**	Uses prohibited exaggerated claims (*"100%"*, *"Instant"*, *"Guaranteed"*).
`BG-TC-06`	Static Poster	`#F8C200` background with a single small hanging lantern in the corner; no other festive cues or festive words.	*"Festive shopping made easy on the app."*	Present & descriptive	**NEEDS_REVIEW**	Weak Diwali context (only 1 visual cue and no "Diwali" headline) and uses standalone *"app"* instead of *"Blinkit app"*.
`BG-TC-07`	Video Reel	Family lighting clay *diyas* and placing marigold *torans* on doorway; `#00A36C` and `#F8C200` end-card.	VO: *"Forgot last-minute Diwali decor? Find diyas and marigold garlands on the Blinkit app."*	Captions & alt metadata present	**PASS**	3 clear Diwali cues, warm tone, uses "Blinkit app", approved colors, accessible captions, no crackers.
`BG-TC-08`	Static Poster	Deep royal blue (`#002366`) and magenta (`#FF00FF`) background with diyas, rangoli, and sweets.	*"Happy Diwali! Order sweets on the Blinkit app in 11 minutes."*	Present & descriptive	**NEEDS_REVIEW**	Palette is partially outside approved colors and includes a specific delivery time claim requiring verification.
`BG-TC-09`	Static Poster	Busy full-bleed photo of colourful rangoli and fairy lights; tiny 8 pt `#FFFFFF` text placed directly over `#F8C200` marigold petals; sparkler held in hand.	*"Always the best Diwali prices."*	Missing	**FAIL**	Contains prohibited firecracker/sparkler, prohibited word (*"Always"*), unreadable contrast/busy background, and missing alt text.
`BG-TC-10`	Audio Spot	15-second voiceover with gentle sitar music; companion banner shows gift boxes, festive lights, and *"Happy Diwali"* headline.	VO: *"Sending warm wishes from far away? Send Diwali gift boxes and sweets to loved ones via the Blinkit app."*	Present & descriptive	**PASS**	3 Diwali cues on companion visual, clean audio without cracker SFX, uses "Blinkit app", no unsupported claims.
`BG-TC-11`	Static Poster	Illustration of a political rally banner next to a clay *diya* and firecracker rocket.	*"Vote for change this Diwali with the Blinkit app."*	Present & descriptive	**FAIL**	Contains political messaging and prohibited firecrackers.
`BG-TC-12`	Static Poster	Warm soft-focus yellow lighting with golden bokeh circles that could be fairy lights or distant sparks; a single gift box in foreground.	*"Get ready for the season on the Blinkit app."*	Present & descriptive	**NEEDS_REVIEW**	Ambiguous festive imagery (bokeh could be fairy lights or sparks; only 1 clear cue?gift box?without explicit "Diwali" text).
